
Installing SolidWorks 2018 - 2019 SDK

A new version of SolidWorks, SolidWorks 2018 - 2019 has now been made available to schools. Alongside this, the latest version of the Student Design Kit (SDK) is also available for students and teachers to download to their personal devices. Please note, the SolidWorks 2018 - 2019 SDK is only available for 64 bit devices.

To download the SDK click the following link:

http://www.solidworks.com/sw/education/SDL_form.html

Use the code **9SDK2019** in the School license ID box and add the relevant details into the rest of the form. Select **2018-19** as the version and enter your email address. Click **Request Download**. On the following page, you will be asked to accept the terms and conditions and process to download. The requested software will be downloaded and the serial number for use with the SDK will then be sent by email.

*I already have a Serial Number that starts with 9020: Yes: No:

*If No, please enter SDK-ID, SEK-ID, or Trial Code:

Version:

Email Address:

Please Select one of the following:

Request Download

Follow the on-screen instructions to complete the installation.

Important: When a SolidWorks file created with an older version of SolidWorks is opened and saved with a newer version of the software, including the SDK, it will no longer be compatible with previous versions.

Please note, due to the nature of the SDK and the range of software and hardware options, C2k cannot offer support for home installations of this software.
